Style: Hybrid of trap and dubstep, featuring heavy bass drops, hypnotics drops, Cyberpunk rhythms, and electronic mayhem. {Style copied from someone else's experiment}

[Start]

[Instrumental intro]

[Verse, vocal harmony]

O, I'm Autistic (So what?)
I see envy in your eyes (Jealous of this!)
Don't I look Autistic enough
For goodness' sake (How `bout now?)
Your rules just didn't take (Conform to this!)

[Pre-Chorus]

No more masking
No more masking (Mask, my royal ass!)

[Eerie Chorus]

I am who I am (Are you?)
Autistic is me (So true!)
Ain't no disease (Not a boo-boo!)
It's my shiny ID (You're a choo-choo!)

[bass drop]

[Verse 2, vocal harmony]

So I'm Autistic (What about you?)
I say I don't wanna hide (Are you sick!)
I can't follow hollow rules
For heaven's sake (How `bout you?)

That would just be fake (inauthentic)

[Shout]

What do we want?

Not to be abused!

When do we want it?

Sometime this century might be nice!

[Pre-Chorus]

No more masking

No more masking (Mask, my noble ass!)

[Eerie Chorus]

I am who I am (Are you?)

Autistic is me (So true!)

Ain't no disease (Not a boo-boo!)

It's my shiny ID (You're a choo-choo!)

[Outro]

{The following lyrics were rendered by the AI just from the bare Outro specification.}

You're a choo-choo!

So true!

Ain't no disease.

Not a boo-boo!

It's my shiny ID!

You're a choo-choo!

[laughter]

{This is from a different iteration of the extension.}

So, I'm Autistic.

What about you?

[End]
